

REMONDIS runs a fleet of company owned Rear Lift, Front Lift and Hook Lift vehicles

- Rear Lift vehicles and bins are ideal for clients who generate low volumes of waste and face space and height restrictions. The receptacles are easy to move and store.
- Front Lift vehicles and bins are suited to clients who generate a medium level of waste. The receptacles are sturdy, easy to move and can be locked.
- Hook Lift vehicles cater for large volumes of bulky commercial and industrial waste streams. Compactor containers can be tailored to suit our client's needs.
- REMONDIS' liquid solutions cater for a range of liquid types, both commercial and industrial. We ensure safety and environmental compliance in the collection, transport and disposal of such materials.

REMONDIS has a fleet of vehicles in operation Australia wide

We aim to demonstrate how decisions on waste management can contribute to a more sustainable future – for your business, community and the environment

Value ad Services

- Waste audits – REMONDIS can assist you or provide this service quarterly or bi-annually.
- Reporting – REMONDIS offers state of the art reporting, allowing our clients to measure and compare recycling month to month.
- Dedicated Representative – When you join REMONDIS, your account will be managed by a trained industry professional who will help with any enquiries.

> Fast Facts

- Every aluminium can we recycle saves enough electricity to power a 100W light bulb for 3.5 hours.
- It takes 125 recycled plastic milk bottles to manufacture a 140Lt wheelie bin
- Recycling 1 glass bottle saves enough electricity to operate a TV for 3 hours
- Using 1m³ of compost offsets approximately 50 days of emissions by an Australian car.

Who is REMONDIS

REMONDIS Australia is committed to the ongoing protection of our environment. Using modern local expertise as well as specialist knowledge from our global parent company, our recycling, composting and waste management processes are unique and quality assured. With assistance from industry trained sales professionals, REMONDIS will help you find the most sustainable and cost effective solution to meet your business’ needs.

REMONDIS provides simple solutions to facilitate the recycling and resource recovery process

REMONDIS can tailor a waste management plan to suit your requirements, providing the following:

- Different coloured bins to assist in separating recyclables
- A variety of bin sizes (wheelie bins, bulk bins and compactors)
- Office recycling solutions (under desk boxes and office recycling)
- Commercial and Industrial Solutions
- Dry, Food and Liquid Waste Collection
- Secure product and document destruction
- Compactor Systems

REMONDIS encourages re-use and recycling. Popular items we handle are:

- Glass
- Plastics (HDPE, PET)
- Cardboard and Paper
- Aluminium & steel cans
- Fluoro tubes & bulbs
- Batteries
- Timber
- Steel
- E-Waste

> Recycling

Organise your business for:
Natural supplies of raw materials
are being depleted at an ever
faster rate. REMONDIS encourages
re-use, recycling and recovery
