Subject: Approval of revised Water Management Plan

Dear Ms Mulholland

I refer to the revised Water Management Plan (WMP) submitted to the Planning Secretary for approval under Condition C9 of SSD-10447 (as modified).

I note that the revised WMP:

- was reviewed by the Applicant in consultation with Port Stephens Council and NSW EPA
- contains the information required by Condition B26
- has been revised in accordance with Conditions C8 and C9; and
- includes an updated Groundwater Management Plan and Monitoring Program with updated detail on baseline groundwater conditions, which informed new Site-Specific Trigger Values and a revised Trigger Action Response Plan.

Accordingly, as nominee of the Planning Secretary, I approve the revised Water Management Plan, Reveision 6, dated 3 July 2026.

You are reminded that if there are any inconsistencies between the approved revised WMP and the conditions of approval, then the requirements of the conditions of consent prevail.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact David Ansen, Planning Officer on (02) 8289 6721.

Yours sincerely

Lindsey Blecher

Team Leader
Industry Assessments

As nominee of the Planning Secretary
