

# Our local resource recovery and recycling services

From our four resource recovery facilities in Perth, REMONDIS provides waste collection and recycling services to the Perth metropolitan region and beyond. Operating our own fleet of heavy vehicles and dedicated drivers, plus our own transfer station and processing lines, we're in a position to offer a full service – reliable and trouble-free.

## Waste management services include

-  General waste – with disposal to energy recovery
-  Co-mingled recycling
-  Soft plastic recycling
-  Paper & cardboard recycling
-  Organics (food and garden)
-  Bulk scrap metal and timber
-  Industrial liquids (grease trap, oily water)

## Our Perth operations

### About REMONDIS Australia

Established locally in 1982, REMONDIS Australia is part of one of the largest recycling, service and water companies in the world.

As a family-run company and a leader in the delivery of environmental solutions, REMONDIS Australia has around 1,200 employees and 580 vehicles operating from our advanced facilities across Australia.

As one of Australia's leading recycling and waste management companies, we leverage our local knowledge and global expertise to serve more than 24,000 industrial and commercial customers throughout the country.

By sharing our knowledge and expertise, diverting waste from landfills and supporting responsible waste management practices, we believe we can work together to bring the vision of a sustainable Australia closer to reality.

# Resource recovery and recycling services

REMONDIS is a **preferred supplier** in CUARWD2025 for waste removal, resource recovery and recycling services. Need a reliable waste management partner with 95% landfill diversion? **REMONDIS makes it easy.**

## Bin sizes

Because no one size fits all, we offer a comprehensive range of lightweight, easy-to-move, lockable bins of varying capacity. We can help you select size and collection frequency based on your waste types, storage space and vehicle access. For larger volumes, we can supply compactors from 6 to 30 cubic metres.

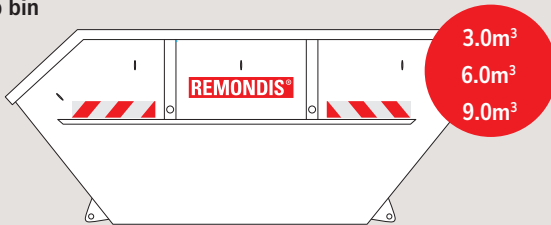

### Plastic wheelie bins

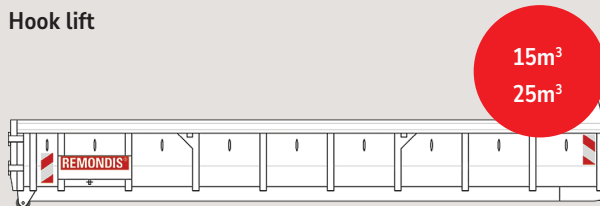

### Steel bin

### Skip bin

### Hook lift

## Energy recovery, not landfill

Residual waste in Perth usually ends up in one of more than 30 landfills – but clients of REMONDIS can divert their non-recyclable residual commercial waste from landfill to energy recovery thanks to REMONDIS's arrangement with Acciona's Kwinana Energy Recovery facility. It's the first facility in Australia that integrates recovery and re-use of waste with the generation of electricity delivering renewable baseload power to a large metropolitan population.

No additional cost; disposal to energy recovery is the same price with **greater value**

At least **95% diversion from landfill**, supported by environmental outcome reports

Improved **environmental outcomes**, including lower carbon emissions

## Industry-leading online Client Portal

Our clients have access to the industry's leading waste management portal, offering unprecedented visibility of your waste and recycling services. View past and future services, request a booking, view operational and environmental data, and view and pay invoices, 24/7 online on desktop or mobile app.

## Why choose REMONDIS?

When it comes to managing your waste for maximum recycling and diversion from landfill, REMONDIS is the local partner you can trust – and we're a **preferred supplier** under CUARWD2025 for waste management. We'll make it easy for you by reliably delivering the services you need, on time and on budget, while maximising diversion from landfill.
